

Weighing Baled Material**ABSTRACT OF THE DISCLOSURE**

An apparatus, a method, and a system are provided for measuring and reporting the weight of bales in a baler. The weight may be determined by a variety of methods. The system may display or store the weight of the bale in the baler. The system may schedule the removal of bales or track the number of bales produced, weight of the bales produced, or value of the bales produced. The system may determine an appropriate time to accomplish the scheduling of the removal of the bales.
